Recall
5/1/24

Medline Industries, LP

IMMEDIATE ACTION REQUIRED

RECALL

Medline-Labeled Syringes

April 22, 2024

Dear Valued Medline Customer:

This letter is to inform you that Medline Industries, LP issued a recall for specific lots of item number SYR101010 and SYR101020. It has been identified that testing documentation does not support that the syringes can successfully deliver accurate volumes across the full range of their claimed graduated capacity and may pose a risk to patient health. Syringes not being able to deliver the intended dose may cause inaccurate dosing leading to the need for additional treatment or other medication. Affected product shall be destroyed per credit per instructions below. Please destroy the affected product in accordance with your state and local regulations. No product is to be returned to Medline. Adverse reactions or quality problems experienced with the use of this product may be reported to the FDA's MedWatch Adverse Event Reporting program either online, by regular mail or by fax.

REQUIRED ACTION:

1. Immediately check your stock for **item number and lot number (All Lot Numbers Starting with 897)**, listed on the destruction form, quarantine all affected product. Destroy all product belonging to the affected lot numbers listed on the destruction form.
2. Please return the completed enclosed destruction form listing the quantity of affected product destroyed. Even if you do not have any affected product please complete and return the form, as indicated on the destruction form.

When we receive your completed destruction form your account will be issued a credit, if applicable.
3. If you have transferred possession of this product to another individual, to another department or another location in your organization you are required by FDA regulations to notify them of this recall communication.

If you have any questions, please contact 866-359-1704 or email recalls@medline.com

As the distributor of this product, we sincerely regret the inconvenience. We, like you, place the health and safety of your patients first and foremost.

Sincerely,

Karin Johnson
